

star vs the forces of evil forces of evil characters - *almighty janitor lobster claws was basically fired at the time and he s the one who got the closest to capturing star s wand since he actually stole it temporarily reconstructed because as it was shown while ludo was in eyesight ludo became a member of the knights who say squee and basically gave lobster claws the celebrity treatment after re hiring the guy, **evil sounds deep tv tropes** - an easy way to tell if someone is evil is if their voice is much deeper than a normal character s often artificially so if someone undergoes a face heel turn then along with their evil makeover their voice will either drop a few octaves get put through a voice modulator or be combined with another voice speaking in a much deeper tone if an anti hero decides to move a few notches down*
